SYKES-
PICKAVANT

DOLLIES

A range of high-quality craftsman dollies for shaping and forming body panels. Drop forged from alloy carbon steel, hand ground and polished.

THIN CURVED DOLLY

The thin curved dolly is used for raising a low spot on a panel. The edge can also be used to restore the shape of a roof.

Part no.	Description	Min Qty
54301	Thin Curved Dolly	1

FEATURES:

Width:	55mm	Depth:	37mm
Length:	125mm	Weight:	0.90kg

GRID TOE DOLLY

This is a special dolly for shrinking work. It has a large crowned grid face on the surface and a plain flat face on the base for standard finishing. This dolly, combined with the shrinking beater and the application of heat, provides quick and effective shrinking.

Part no.	Description	Min Qty
55001	Grid Toe Dolly	1

FEATURES:

Width:	58mm	Depth:	28mm
Length:	120mm	Weight:	1.16kg

DOLLIES

UTILITY DOLLY

This dolly is to be placed in a damaged flange using the edge most suitable to the size and shape of the original.

Part no.	Description	Min Qty
55201	Utility Dolly	1

FEATURES:

Width:	57mm	Depth:	58mm
Length:	76mm	Weight:	1.15kg

ROUND HEAD DOLLY

Double-ended dolly for re-shaping rounded and contoured panels. One side is domed and the other side is flat.

Part no.	Description	Min Qty
55701	Round Head Dolly	1

FEATURES:

Width:	56mm	Depth:	56mm
Length:	56mm	Weight:	0.73kg

HEAVY TOE DOLLY

Toe dollies have a low crown and are most suitable for reshaping. Heavy weight toe dolly enables access in difficult to reach areas. Has one flat face and one curved face.

Part no.	Description	Min Qty
55801	Heavy Toe Dolly	1

FEATURES:

Width:	60mm	Depth:	30mm
Length:	125mm	Weight:	1.37kg

BUMPING SPOONS & TOOLS

SPOONS MAIN FEATURES:

- A selection of bumping spoons for roughing and/or prying in the preparation of body panels.
- May also be used in the place of a dolly where access is restricted.
- The choice of spoon depends on the original contour of the metal, the amount of access available and the proposed action (i.e roughing or levelling).

SPOONS RANGE & SPECIFICATIONS:

Part no.		Description	Min Qty	Width:	Length:	Weight:
51201		Heavy Duty Pry Spoon	1	60mm	390mm	1.30kg
57300		Pry and Surfacing Spoon	1	40mm	295mm	1.10kg
57400		General Purpose Spoon	1	37mm	295mm	1.10kg
57800		Angled Surfacing Spoon	1	45mm	295mm	0.72kg

TOOLS MAIN FEATURES:

- Curved serrated steel blades, ideal for flattening bumps and dents for semi-finishing work on body panels.
- Great for aluminium panels, thin steel or fine adjustment work, can be used for bumping, slapping or filling.

TOOLS RANGE & SPECIFICATIONS:

Part no.		Description	Min Qty	Width:	Length:	Weight:
59400		Bumping Tool Flat Blade	1	35mm	350mm	0.72kg
59500		Bumping Tool Half Round	1	33mm	350mm	0.68kg

PANEL BEATING HAMMERS

HAMMERS MAIN FEATURES:

- High quality forged alloy steel heads with hardened striking surfaces.
- Octagonal hickory shafts, secured with unique double-wedge system - wood and steel.
- Selection of faces available, in both round and square formats.

PANEL BEATING HAMMERS RANGE & SPECIFICATIONS:

Part no.		Hammer Type	Face Type	Face (1):	Face (2):	Weight:
52800		Light Shrinking Hammer	 Shrinking	Round - 41mm	Square - 38mm	0.425kg
56000		Standard Bumping Hammer	 Flat	Round - 41mm	Square - 38mm	0.425kg
56200		Crowned-Face Light Bumping Hammer	 Crowned	Round - 32mm	Square - 25mm	0.368kg
56500		Crowned-Face Pein and Hammer	 Crowned	Round - 41mm	Straight pein	0.425kg
56600		Crowned-Face Pick and Finish Hammer	 Crowned	Round - 38mm	Pick	0.430kg

PANEL BEATING HAMMERS

MALLETS MAIN FEATURES:

- Rubber mallets with interchangeable heads are ideal for use on alluminium and may be used in the manufacture of panels in sheet steel.
- Copper / rawhide mallets are double ended and ideal for bodyshop use.

MALLETS SPECIFICATIONS & FEATURES:

Part no.	Description	Min Qty	Features
53100	 Rubber Faced Mallet	1	<ul style="list-style-type: none"> • Flat and cone shaped interchangeable heads. • Ideal for use on aluminium and light gauge steel. • Replacement heads available.
53200	 Copper / Rawhide Mallet	1	<ul style="list-style-type: none"> • Double ended mallet ideal for bodyshop use. • 1.1kg weight

TOOL SETS

Body Repair Set - General Kit
Part number: 58301

- Comprehensive general purpose set of bodyshop tools
- Supplied in lockable metal case
- Contains 14 tools

GENERAL BODY TOOLS

DOOR SKIN CRIMPING TOOL

Handheld tool used for crimping and bending flanges when replacing door skins and panels. Replaceable nylon pads prevent damage to doors when crimping.

Part no.	Description	Min Qty
43100	Door Skin Crimping Tool	1

UNIVERSAL BODY TRIM TOOL

Multi-application tool for use on all types of trim and trim clips. Suitable for weather strips, door trim, plastic mouldings, motifs, badges, clips, etc.

Part no.	Description	Min Qty
45800	Universal Body Trim Tool	1

GENERAL BODY TOOLS

AUTOMOTIVE TRIM REMOVAL TOOLS

A must have for removing or re-fitting interior and exterior trims. Designed to enable safe, damage-free removal of vehicle trim panels.

A set of five angled lever and panel pullers manufactured in a strong yet flexible plastic which allows a reasonable force to be applied without damage. The plastic construction vastly reduces the possibility of damaging the trim or metal panel.

Part no.	Description	Min Qty
45500	Door Skin Crimping Tool	1

SUITABLE FOR:

• Roof linings	• Door cards
• Door trims	• Airbag trims
• Panel trims	• Door or body rubbing strips

IMPACT DRIVER SET

For use with a medium weight hammer to loosen stubborn screws and nuts. Ideal for removal of brake drum screws and door hinge brackets. Supplied with a range of interchangeable bits.

Part no.	Description	Min Qty
40101	Impact Driver Set	1

OUR CULTURE IS TO
CONSISTENTLY
DELIVER EXCELLENCE

“

*We are what we repeatedly do.
Excellence, then, is not an act, but a habit.*
