

NEW EQUIPMENT FOR Q42 & BENCHRACK

RAMP KIT AND WHEEL STOP KIT FOR LOW PROFILE VEHICLES

We are pleased to let you know that new equipment suitable for low-profile vehicles is now available for Quick42 and BenchRack.

The new ramps assist workshops in safely repairing a wider variety of vehicles. Ramp Kit 50364 makes it easy for low-profile vehicles to drive onto the benches without damaging the undercarriage. The ramps are easy to lift off and on and can be hung from hooks on the WSS wall when not in use.

Wheel stop Kit 50505 provides a safe stop without damage to the spoiler.

QTY.	PART NO.	PRICE SEK	DESCRIPTION
