Plastic | QTY 20 pcs
Item No. HV153

Bold chocks
incl. screws | 12 pcs
Item No. HV156

*fits 98 % of all vehicles with 4 and 5 bolt PCD circle rims
** fits 98 % of all vehicles with 6 bolt PCD circle rims. Limited use on vehicles with 5 bolt PCD circle

The reason we quote 98%, is to leave us room to discover how to make the 2% work. On some vehicles, there may be a need to use aftermarket nuts or bolts. On some vehicles, the center hub of the 4/5 size may be too small and the solution is to use our 5/6 size the solution is to use our 5/6 size.
