

## RIVETING TOOL XPRESS PUSH/PULL I FULL SET

Pictures are for illustration purposes only - actual products may differ from images

The modular technology of the device allows the adaptation of many function tools for different applications. The device system can be optionally combined with a series of hydraulic cylinders and designated C-brackets. The device system is supplemented by a multitude of special tools for customised applications.

PushPull Set 3: Selfpiercing Rivets (SPR) - Flow Form Rivets (FFR) - Blind Rivets (BR) - Blind Rivet Nuts (BRN) - Solid Rivets (SR + SSFR) - Counter Sink Form Rivets (CFFR)

**XPress 800 PushPull system: innovative technique for the professional car body repair. To place rivets in hard and ultra hard chassis structures.**

Recommended by Mercedes-Benz
