

3-torches inverter welding machine

Steel Welding | Brazing | Aluminium Welding

3G welding torches

- automatic recognition of welding torch
- automatic „Hold-function“ of welding parameters
- **wire feed unit** with 4 rollers precision drive
- **90 memories** for individual welding parameters
- small heat influx
- very good gap-bridging (gap-filling)
- Welding current: **240A**
- **Pulse- and double pulse** welding (2-cycle & 4-cycle mode)

The **ALLROUNDER** for body shop professionals
 steel welding and MIG soldering

optional
 holder support for
 3 torches
 item N° 337204

- 1 x InvertaPuls IP4-3 ACT; 3 x 400 V; 240 A
- 1 x set wire rolls for steel 0,6 / 0,8 mm
- 1 x set wire rolls for steel 0,8 / 1,0 mm
- 1 x set wire rolls for ALU 1,0 / 1,2 mm
- 1 x steel-torch 3G, 3m
- 1 x MIG-torch 3G, 3m
- 1 x ALU-torch 3G, 3 m
- 1 x earth cable
- 1 x double branch valve
- 1 x starter set current nozzles
- 1 x operation manual

item N° 341298 - 3x400V
 item N° 341299 - 3x200V

Welding programs for:

- **MIG** brazing 0,8-1,0 mm
- **Aluminium**
- **Steel** / stainless steel 0,6-1,2 mm
- TIG (WIG)
- Pulse and double pulse welding
 2-cycle & 4-cycle mode

including special mode
 thin metal sheet - **ACT**
 for **steel welding**

easy to maintain

simple operation with
 2 button control

extra wide space
 for 2x gas bottles

optional
 front wheel spacer 600 mm
 for gas bottle use
 item N° 337236

4 rollers precision drive 3x D200 wire coil devices
